Employment-oriented Danish Language Training for Adult Foreigners

The target group for Employment-oriented Danish Language Training would be newly arrived workers, accompanying spouses, students, and au pairs. The purpose is for students to learn general Danish language skills as quickly as possible to help them at their place of work, education, or everyday life.

Employment-oriented Danish Language Training consists of five courses of 50 lessons each for a total of 250 lessons. The five courses conclude with an exam. The courses take place over a period of up to 18 months. After the five courses, students may continue with other Danish language courses.

Contents

General Danish language skills, identical to the language goals of the first modules of the ordinary Danish language courses.

Employment/education-oriented Danish language training is based on students' individual language needs for relevant skills according to their place of work or education – or host family in case of au pairs.

Classes are held in the mornings, afternoons, evenings, and on Saturdays. Online courses are available through our e-Language Centre.
